**STICK POSTAGE STAMPS TO ARTICLE TO COVER FIRST CLASS POSTAGE,
CERTIFIED MAIL FEE, AND CHARGES FOR ANY SELECTED OPTIONAL SERVICES (see front).**

1. If you want this receipt postmarked, stick the gummed stub to the right of the return address leaving the receipt attached and present the article at a post office service window or hand it to your rural carrier (no extra charge).
2. If you do not want this receipt postmarked, stick the gummed stub to the right of the return address of the article, date, detach and retain the receipt, and mail the article.
3. If you want a return receipt, write the certified mail number and your name and address on a return receipt card, Form 3811, and attach it to the front of the article by means of the gummed ends if space permits. Otherwise, affix to back of article. Endorse front of article **RETURN RECEIPT REQUESTED** adjacent to the number.
4. If you want delivery restricted to the addressee, or to an authorized agent of the addressee, endorse **RESTRICTED DELIVERY** on the front of the article.
5. Enter fees for the services requested in the appropriate spaces on the front of this receipt. If return receipt is requested, check the applicable blocks in item 1 of Form 3811.
6. Save this receipt and present it if you make inquiry.

John D. Stiller, Environmental Compliance
Manager
Burlington Environmental, Inc.
1011 Western Avenue, Suite 700
Seattle, Washington 98104

Dear Mr. Stiller:

This concerns the May 27, 1993, Environmental Protection Agency (EPA) inspection which was conducted at facilities of Burlington Environmental, Inc., located at 734 S. Lucile, Seattle, Washington. The inspection was conducted by W. Douglas Smith to determine compliance with the federal PCB (polychlorinated biphenyl) regulations which were promulgated pursuant to the Toxic Substances Control Act (TSCA).

As part of the inspection, copies of manifests were obtained. One manifest obtained, Uniform Hazardous Waste Manifest Number 40386, listed Westwood Town Center, Inc., Vancouver, British Columbia, as the generator, which released the PCB waste to Resource Recovery on April 8, 1993. The PCB waste is identified as six drums with a total weight of 2,045 kilograms.

In this regard, please identify the exact nature of the PCB waste and the final disposition of this waste. In addition, please provide copies of entry papers, e.g., bill of lading, shippers weigh bill, U.S. Customs papers, etc., concerning the shipment shown on the described manifest, including documentation which shows the importer of record.

If you have any questions, please call me at (206) 553-7369.

Sincerely,

William M. Hedgebeth
PCB Team Leader
Toxic Substances Section
